Message: Invalid Client SSN

Mark Invalid Client SSN

From Kraft, Emily Date Monday, March 6, 2017 11:11 AM

To 'Laura Griggs'

Cc

Hi Laura,

It has come to my attention that the SSN entered for is not a valid SSN. It is extremely important that each client have the correct SSN entered into the A2A database, because that is how the system checks to ensure a client is not enrolled with more than one provider. Please obtain the correct SSN from her, and enter it into the system.

Thanks,

Emily Kraft
